Motivation for Application

Hello, my name is Atip Nasakun. I have experience in Web Development with strong skills in building and maintaining systems. Currently, I am developing my skills in Go, which I find both challenging and interesting. I am also eager to explore new technologies such as Blockchain. I believe that Cleverse would be a great place for me to apply and grow these skills to create valuable work

Experience

10X Plus Co., Ltd
FullStack Developer | Nest / Nuxt3
July 2024 – Present
- maintain ERP Software Upgrade Project nuxt2 to nuxt 3 in 1 month

Skills

Frontend
- Vue / Nuxt
- React / Remix / Next
- Angular

Backend
- ASP.net Core (C#)
- Express / Nest

Other
- IOT (Arduino)
- Nginx
- Docker (Compose)
- Desktop Application
- VPS Cloud Computer
- Http/Web Socket
- Basic Deployment

Database
- SQL Server
- MySQL
- MongoDB

Projects

Simple Inventory Stock System (Nuxt3, Nest, Mysql,Line Api)
- Developed a system to track the import and usage of goods, storing them in batches with cost prices.
- Implemented average cost price calculation when issuing goods and integrated with Line Message API for issuing alerts.
- Classified goods by SKU to accommodate multiple product types.

Bad Boys (Vue SPA, Express, MongoDB)
- Developed a mobile-friendly badminton pairing application using Vue SPA.
- Designed to solve the problem of manually pairing players during badminton games with friends by randomly assigning pairs.
- Deployed the application on Vercel for easy access and use.

32 Game Controller (Arduino, Nginx ,Vue ,Express, Docker)
- Developed an online game controllable via ESP32, integrating the ESP32 with the game server through Express to control the website using Socket.
- Created a two-player XO game with spectator mode, allowing others to watch the game in real-time.
- Combined various techniques and deployed the project with a custom domain at atipnasakun.online.

Activities

Hackatrain By DevMountain #2
11 Novemcber 2022 –12 November 2022
- Created a program convert data csv to xml and xml to csv without library
- Chat App with Vue (web socket)

Education

King Mongkut's University of Technology North Bangkok
Mathematics Computer Science (MC) GPX 3.18 | May 2024
